*eReflex 75RW with Oak Log effect, shown as a two-sided installation with Optional Mood Lighting System*

eReflex 55RW and 75RW electric fires combine Gazco's advanced Chromalight® technology with ease of installation for a contemporary centrepiece, brought to life by authentic fuel effects, mesmerising flame visuals and a pulsing realistic glowing ember bed. Using the innovative Eco Remote Control or powerful app, it's never been easier to find your perfect ambience, with or without the heat. Enjoy the array of immersive lighting options the eReflex has to offer from the comfort of your sofa, all year round.

The eReflex 55RW and 75RW are both designed to make the perfect focal point whether you're looking for a multi-sided, corner, or single-sided configuration for pairing with one of our stylish mantels.

An optional mood lighting kit offers added fireside ambience, allowing you to tailor your experience with up to 6 metres of LED lighting for accompanying shelves or around a television.

## Key Features

- Can be configured as a three-sided, two-sided, or single-sided fire
- Can be installed within a mantel
- Chromalight® LED System including three flame colour choices

## Ambience on command

eReflex fires can be controlled with a powerful app, available on an iOS or Android smart device. This app offers the same ability to control your fire remotely, but with the ease of access from your phone or tablet.

Download the app using the QR code, or search for MusFlame on the App Store. [gazco.com/electricapp](http://gazco.com/electricapp)

Download on the  
**App Store**

## Stone Mantels

Both the eReflex 55RW and 75RW can be combined with Gazco's beautiful stone mantels and optional hearths for a magnificent, traditional fireplace aesthetic. Choose from any one of the period-influenced designs to create a stunning centrepiece in your home. For further information please refer to the main eReflex brochure.
